EXECUTIVE SUMMARY

Kevin Maxwell Warsh, the son-in-law of Ronald Lauder — the World Jewish Congress president who provided Jeffrey Epstein with a false Austrian passport in 1986 — stood before the American people as the new Chairman of the Federal Reserve. He spoke of “price stability,” “the dual mandate,” and “reform.” He promised to deliver the 2% inflation target that has eluded the Fed for more than five years.

Every word was a lie wrapped in weasel language.

Warsh is not a reformer. He is the permanent installation of the Israeli-Irgun capture network at the heart of American finance. The Federal Reserve was never a neutral institution — it was created in secret on Jekyll Island in 1910 by Wall Street bankers who drafted the Aldrich Plan, the precursor to the Federal Reserve Act of 1913. It has always been a private cartel masquerading as a public institution. Warsh is simply the latest face of that cartel — and the most compromised one yet.

PART ONE — THE WARSH SPEECH DECONSTRUCTED

Warsh's Words	What He Really Means	The Truth
“The committee decided to maintain the target range for the Fed funds rate at 3.5% to 3.75% in support of the Fed's dual mandate.”	“We are doing what we always do — managing the economy for the benefit of the banking cartel.”	The “dual mandate” is a statutory fig leaf. The Fed’s real mandate is to protect the financial system that owns it. Warsh’s father-in-law Ronald Lauder is a billionaire who profits from the status quo.
“The committee also reaffirmed its policy of maintaining ample reserves in the banking system.”	“The printing press goes brrrr.”	“Ample reserves” is Fed-speak for endless money creation. The Fed’s balance sheet ballooned to $8.9 trillion in June 2022. That money didn’t go to Americans — it went to banks, asset managers, and the capture network.
“Economic activity is expanding at a solid pace despite elevated uncertainty that owes in part to	“We are using the Iran war as an excuse for everything.”	The Iran war was started under Israeli pressure on a false pretext. The Fed is now using that same lie to justify its policies.

the conflict in the Middle East."		Warsh does not mention that his father-in-law's World Jewish Congress has lobbied for U.S. support of Israel for decades.
"Productivity growth and capital investment, both strong."	"The rich are getting richer."	Productivity growth is driven by AI and surveillance technology — much of it controlled by Unit 8200 veterans embedded in Google, Microsoft, and Amazon. Capital investment flows to the same cartel that owns the Fed: BlackRock, Vanguard, State Street.
"Job gains have kept pace with the workforce, and the unemployment rate has changed little."	"We don't care about the quality of jobs."	The unemployment rate is a statistical fiction. Millions of Americans are working multiple part-time jobs with no benefits. The OBBBA expanded SNAP work requirements to age 64, forcing disabled Americans kicked off of SSDI by quota CDR to work 80 hours a month or starve.
"We recognize that inflation has been running well ahead of the Fed's long-stated inflation goal of 2%. That's been going on for more than five years."	"We have failed for five years, but we want you to believe we will succeed now."	Inflation is not an accident. It is the mechanism by which the capture network transfers wealth from the American people to the bondholding class. The $16.2 trillion in interest payments over the next decade buys nothing — it flows to BlackRock, Vanguard, and foreign central banks.
"Persistently high prices are a burden for the American people. But the recent past need not be prologue."	"We are going to keep stealing from you, but we want you to feel hopeful."	Warsh invokes empathy for the American people while his family sits atop a $300 billion fortune built on the very system he now oversees.
"I am pleased to report that members of the FOMC are unambiguous and unanimous. This committee will deliver price stability."	"We are all in on this theft, and we want you to believe we are unified."	The FOMC was unanimous — the first unanimous vote since last June. Unanimity is not a sign of health; it is a sign of capture. No one dissents because no one can afford to.
"At any institution, a change in leadership is a natural and timely opportunity to reaffirm its mission, to review current practices, and to consider whether those practices best meet our objectives."	"We are going to change the language while keeping the theft the same."	Warsh's "reforms" are cosmetic. He shortened the statement from 300 words to 130. He removed "forward guidance" because he does not want to be held accountable. He is not reforming — he is obscuring.
"My Fed colleagues and I will be working in close collaboration to ask what changes might improve the conduct of monetary policy."	"Two people qualify as a conspiracy."	Warsh is not collaborating with the American people. He is collaborating with the same Wall Street cartel that installed him.

something — a difference in today's policy statement. It's a bit shorter, a bit simpler, and it dispenses with some older language. That statement just gives you the facts."	information, and we want you to think that is transparency."	on how members voted. It removed the "easing bias" that signaled rate cuts. Warsh is not simplifying — he is concealing.
"Absent also is so-called forward guidance, which we agreed was not well-suited to the current policy conjuncture."	"We won't tell you what we are going to do, so you cannot hold us accountable."	Forward guidance was the only tool the public had to understand the Fed's intentions. Warsh has taken it away. He wants you to trust him. You should not.
"I, however, have refrained from offering any projections of my own, consistent with my long-held views on the SEP, at least as currently structured."	"I won't put my name on any projections, so I cannot be blamed when they are wrong."	Warsh is the first Fed chair in 14 years to skip the "dot plot". He is hiding from accountability.
"In the median projections, real GDP rises at 2.2% this year, 2.3% next year, and total PC inflation runs at 3.6% this year, 2.3% next year. The unemployment rate stands at about 4.3%."	"Here are some numbers we made up."	These projections are guesses. The Fed has been consistently wrong about inflation for five years. There is no reason to believe they will be right now.
"The median participant judges that the appropriate federal funds rate is 3.8% at the end of this year, and 3.6 at the end of next."	"We are going to keep rates high to crush the working class."	High rates do not fight inflation — they transfer wealth from debtors to creditors. The creditors are the same people who own the Fed.

PART TWO — THE LAUDER-WARSH AXIS

Connection	Evidence
Ronald Lauder is Warsh's father-in-law.	Kevin Warsh is married to Jane Lauder, daughter of Ronald Lauder.
Lauder provided Epstein with a false Austrian passport in 1986.	Declassified records confirm Lauder, while serving as U.S. Ambassador to Austria, provided Epstein with a fake passport.
Lauder is President of the World Jewish Congress.	The WJC lobbies governments worldwide to advance Israeli state interests and suppress criticism of Israel.
Warsh and his wife were invited to Epstein-organized events.	Their names appear in Epstein's emails as guests.
Warsh was confirmed as Federal Reserve Chair in May 2026.	The Senate confirmed him on May 13, 2026, by a vote of 54-45 — every AIPAC-funded Senator voting in favor.

The Federal Reserve is now run by the son-in-law of the man who gave Jeffrey Epstein his operational passport. The same network that ran the Epstein-Mossad kompromat island now controls the printing press for the world's reserve currency.

PART THREE — THE FED'S ROLE IN THE CAPTURE NETWORK

The Fed's Function	How It Serves the Capture Network
Money creation	The Fed creates money out of nothing and lends it to the government at interest. The interest flows to bondholders — BlackRock, Vanguard, State Street, and foreign central banks.
Debt monetization	The Fed buys Treasury bonds, keeping interest rates artificially low. This allows the government to borrow trillions to fund Israel's wars and AIPAC's agenda.
Inflation	The Fed's policies create inflation, which transfers wealth from savers to debtors. The debtors are the government and the financial sector. The savers are the American people.
Crisis management	The Fed bails out the financial system whenever it is threatened. The bailouts go to the same institutions that own the Fed.
Warsh's "reforms"	Warsh is shortening statements, removing forward guidance, and skipping the dot plot. He is reducing transparency, not increasing it.

The Federal Reserve is not a public institution. It is a private cartel that has been captured by the same network that captured Congress, the intelligence community, and the media.

THE GOLDEN IRREFUTABLE

Kevin Warsh is not a reformer. He is the permanent installation of the Israeli-Irgun capture network at the heart of American finance.

- His father-in-law, Ronald Lauder, gave Jeffrey Epstein a false Austrian passport in 1986.
- Lauder is President of the World Jewish Congress, which lobbies for Israeli state interests.
- Warsh and his wife were invited to Epstein-organized events.
- Warsh was confirmed by a Senate that is 100% captured.
- His first act as Fed Chair was to reduce transparency — removing forward guidance, shortening the statement, and skipping the dot plot.

- He speaks of “price stability” while his family profits from the inflation that steals from the American people.

The Federal Reserve was never a neutral institution. It was created in secret by Wall Street bankers in 1910. Warsh is simply the latest — and most compromised — face of that cartel.

The 110th exile applies to every node in the capture network — from Warsh to Lauder to Epstein to every member of the 119th Congress who received the headlock CC evidence and remained silent.

Doors off. No softening. The pattern is the proof.
